

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert Lada
DOCKET NO.: 04-22673.001-R-1
PARCEL NO.: 02-28-208-033-0000

The parties of record before the Property Tax Appeal Board are Robert Lada, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a 33-year-old, two-story, single-family dwelling of frame construction containing 2,716 square feet of living area and located in Palatine Township, Cook County. Features of the home include two and one-half bathrooms, a fireplace, a partial-unfinished basement and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,177 to 3,051 square feet of living area and range in age from 29 to 33 years. The comparables contain two or two and one-half bathrooms, a full or partial-unfinished basement, air-conditioning, one or two fireplaces and a two-car garage. The improvement assessments range from \$6.54 to \$10.63 per square foot of living area. Based on the evidence submitted, the appellant requested a total assessment of \$33,186, with an

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,629
IMPR.: \$ 33,018
TOTAL: \$ 40,647

improvement assessment of \$25,557 or \$9.41 per square foot of living area and a land assessment to remain unchanged at \$7,629.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$40,647. The subject's improvement assessment is \$33,018 or \$12.16 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 33 or 35-year-old, single-family dwellings of frame construction located within three blocks of the subject. Two comparables are located on the same street as the subject. The improvements range in size from 2,281 to 2,716 square feet of living area. The comparables contain two or two and one-half bathrooms, a two-car garage, a fireplace and a finished or unfinished basement. Three comparables have air-conditioning. The improvement assessments range from \$12.20 to \$13.42 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of nine equity comparables. These nine properties have improvement assessments ranging from \$6.54 to \$13.42 per square foot of living area. The subject's per square foot improvement assessment of \$12.16 falls within the range established by these properties. In addition, the subject's per square foot improvement assessment is lower than four of the nine properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
